HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets,
He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling invented by H. B. Hagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt, screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which is so often disturbing [illegible]. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle [illegible] with small expense. We have [illegible] and [illegible] it to ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

Traces of the conspiracy have been [illegible] at Marseilles.

COLORADO TERRITORY

DENVER, Col., May 6.—Accounts of Indian outrages on the Kansas Pacific Railroad and elsewhere in Colorado recently published by eastern newspapers are entirely groundless. There have been no Indian troubles in this Territory during the past year. Governor McCook is confident that none are to be anticipated within the limits of Colorado.

STILL ANOTHER.—The giant Colonel Craig, who has been getting his grub and whisky gratis from [illegible] in Oregon for a year or two, is now going through the brethren in Washington Territory. The Walla Walla [illegible] has the following of him:

There is an ex Col. of Gen. Lee's staff around bleeding our citizens out of some of their cash to supply his present needs. He calls himself Col. Alex Craig. The relation he bore to the Confederate army gave him a passport to the Democratic friends, several of whom came out with a piece by way of showing their appreciation of the lost cause and its unfortunate officers, many of whom are now in needy circumstances. Our hero, after sampling the whisky of some of our liquor dealers, all of which he pronounced good, went to the School Superintendent and recommended himself as a good friend to the "lost cause" [illegible] and got a teacher's certificate. We know nothing of the man's qualifications but would judge from the autograph that he left with a certain merchant in this place that the Confederate chieftain had some Colonels under him who wrote a mighty poor fist.

VEGETABLE PARASITES.—The following is from a paper read by Dr. N. S. Davis before the Illinois Microscopical Society. It is a fact worthy of note that vegetable parasites have been found only in connection with diseases of such structure as are covered with epithelial cells, like the skin and mucous membrane, or on suppurative surfaces where the organic cells are undergoing more or less degeneration. This suggests the question whether all these parasitic forms are not the results of what Professor Wilson has styled [illegible] degeneration of cells and granules of animal matter? Whatever may be the differences of opinion in relation to the nature and mode of development of these simple parasitic bodies found in connection with epidemic and some endemic diseases, all agree that their production and rapid multiplication are directly dependent on existence of three things, viz., organic matter capable of undergoing fermentation or decay, moisture and an atmospheric temperature generally above 60° F. If with these we have in the daily exhalations of soul [illegible] we have the conditions most favorable for all vegetable parasitic formations.

CURRENT NOTES

The multitudes of people moving out of New York at this early season are beyond all precedent and they are all seeking homes in the suburbs.

A youth named Jacob Harb, about seventeen years old, deliberately cut off his foot recently in Lampeter township, Pennsylvania, and when asked why he did it, replied that he was told that if one of his feet offend him he should cut it off. He had struck three blows and [illegible] buried it a short distance from him. The mutilation proved fatal.

Some time ago we told how the City Marshal of Portland, Maine, sent a hundred dogs to Portsmouth, N. H., and had them turned loose in the streets, and telegraphed to the City Marshal of Portsmouth, inquiring the price of dogs in his neighborhood. On the 1st April the Portsmouth man, to get even, telegraphed to the Portlander to be at the depot on the arrival of the noon train to arrest a noted desperado. The Marshal was on hand promptly, but he failed to catch the bird in the trap, and when he looked carefully at the telegram he found the name was given as A. P. Rill.

George Francis Train [illegible] and proclaims to the Fenians [illegible] war upon the Canadian expedition which is getting out to quell the Red River rebellion. We quote the concluding portion of this document: Cry an O N [illegible] Savage! to the rescue. Ambush the troops. Rally to Riel! Backwoodsmen, Woodchoppers and Raftsmen! Remember Seventy and Lexington and Bunker Hill! I am off to stump Minnesota. Twenty-eight engagements in May. No British troops shall pass that gate. One Million poor men dead. Three Thousand Millions of Debt on the backs of the people. [illegible] destroyed. Citizens in Bastiles. Blockade Bills Unsettled. Banquets to Arthur. On to Victory. Remember Braddock's Defeat. When the Government Sells us Flag, Let the People Rise! On Manitoba and destroy the Red River Invaders.

The New York World says: The Democrats in Delaware have resolved to have nothing to do with the negro vote, but to appeal exclusively to the white men of the State for support. Per contra it would seem that the colored voters of Delaware have on their part, resolved to have nothing to do with the Democrats for they are pronouncing in favor of Judge George P. Fisher as successor to Mr. Saulsbury in the United States Senate. Judge Fisher, now Judge of the Criminal Court at Washington, and a citizen of Delaware, has just been appointed U. S. District Attorney for the District of Columbia. He is an able man, a good Radical and popular with both whites and blacks. He will probably be elected. The chances are encouraging, therefore, that Saulsbury will drink whisky next year in Delaware instead of at Washington.

At a recent session of the New York Farmers' Club, the question of the value of iron to the peach tree was discussed, and the general impression seemed to be in its favor. A gentleman from Long Island exhibited specimens of different peach trees, which five years ago were badly infected by the "yellows," but which were now vigorous and healthy. This change, he claimed, had been wrought by the use of iron. He had applied iron filings, etc., about the roots, and the borers and other insects had ceased to infest them, while the "yellows" had disappeared. He would give his peach trees a mulching of ten penny nails if no other form of iron could be obtained. Another gentleman, Mr. Crane, also gave in his testimony for iron. He had a large experience in peach growing and had seen the good effects of iron in the vigor of both the tree and fruit. He had found the muck from a bog meadow, into which flowed iron springs, a most excellent fertilizer for the peach.

The Fifteenth Amendment

LETTER FROM CHIEF JUSTICE CHASE

It is notorious that Chief Justice Chase is determined to be a candidate for the Presidency, and that he rests his hope of obtaining it on the Democratic party. In this view the following letter from him to the colored people of Cincinnati on the occasion of their recent celebration of the Fifteenth Amendment may be considered to possess a weighty significance.

WASHINGTON, March 30, 1870.

GENTLEMEN: Accept my thanks for the invitation you have tendered me, in behalf of the colored people of Cincinnati, to attend their celebration of the ratification of the Fifteenth Amendment. My duties here will not permit me to be present except by good will and good wishes.

Almost a quarter of a century has passed since some of you probably heard me declare on the 6th of May, 1845, in an assembly composed chiefly of the people whom you now represent, that all legal distinctions between individuals of the same community founded on any such circumstances as color, origin and the like are hostile to the genius of our institutions and incompatible with the true theory of American liberty; that true Democracy makes no inquiry about the color of the skin or the place of nativity, or any other similar circumstance of condition, and that the exclusion of the colored people as a body from the elective franchise is incompatible with true Democratic principles.

I congratulate you on the fact that these principles, not then avowed by me for the first time, nor even since abandoned or compromised, have been at length incorporated into the Constitution and made part of the supreme law of the land.

Many, no doubt, would have been glad as I should have been if the great work consummated by the ratification of the Fifteenth Amendment could have been accomplished by States through amendment of State Constitutions and through appropriate State legislation; but the delays and uncertainties, prejudicial to every interest, inseparable from that mode of proceeding seemed to necessitate the course actually adopted. Nor does the amendment impair the real rights of any State. It leaves the whole regulation of suffrage to the whole people of each State, subject to the fundamental law that the right of no citizen to vote shall be denied or abridged on account of color, race or previous condition of servitude. It is to be hoped that each State will so reform its Constitution and laws to this fundamental law that no occasion may be given for legislation by Congress.

But the best vindication of the wisdom as well as justice of the Amendment must be found in the conduct of that large class of citizens whom you represent. On the occasion to which I have referred I ventured to say that the best way to insure the peaceful dwelling together of the different races is the cordial reciprocation of benefits, not the mutual infliction of injuries; and I cannot now give you better counsel than I offered then. Go forward having perfect faith in your [illegible] and in God's providence, adding to your faith virtue, and to virtue knowledge, and to knowledge patience, and to patience temperance, and to temperance brotherly kindness, and to brotherly kindness charity.

[illegible] the Fifteenth Amendment [illegible] the removal of the political disabilities [illegible] upon our fellow citizens by the Fourteenth Amendment, so that through universal suffrage and universal amnesty peace, good will and prosperity may be established throughout our country.

Every good man must rejoice in the progress which the colored citizens of the United States have made in education, in religious culture and in the general improvement of their condition. Every good man must earnestly desire the [illegible] and accelerated progress [illegible] public and private interests will be [illegible] and [illegible] insure at no distant day a full recognition of their rights even from those of their fellow citizens who have most earnestly opposed them.

No man can now be found who would restore slavery; a few years hence if the colored men are wise it will be impossible to find a man who will avow himself in favor of denying or abridging their right to vote. Very respectfully yours,

S. P. CHASE.

Messrs. PETER H. CLARK, &c., Committee.

The Oregon War Claims

In a letter from B. F. Dowell, who is now in Washington, to the Jacksonville [illegible], some interesting statements are made relative to the Oregon war claims of 1855 6. Mr. Dowell introduces the subject by remarking that these claims are still misunderstood even by some very intelligent claimants. It will be seen that obligations which Democratic administrations for years refused to pay are now being paid [illegible] raises the question who are the repudiators of the Oregon war debt? Mr. Dowell goes on to say:

[illegible] J. Day, Sergeant of Capt. R. [illegible] W[illegible] company and a very intelligent citizen of Jacksonville, in a letter to S. D. Barber about the claim of John Lee, who was a private in Capt. Williams' company and who got his horse killed in battle on Murphy's Creek, writes that he is credibly informed that there never has been a roll of Capt. Williams' company filed with the Adjutant General at Washington, and therefore he tells Mr. Lee, his companion during the war, coolly, that his claim "would not pay to bother with," and "that he can consider that he has given that time and the horse, &c., that he lost to the government and consider himself lucky that he got off with his life," &c. Now it is true no muster rolls of any company during that war have ever been filed with the Adjutant General, but all of them are on file in the Third Auditor's office, and among them is the muster roll of Captain Robert L. Williams. All this class of cases can now be collected by proper proof. The pay for the services of Mr. Lee, Capt. Williams' company might have been collected at any time since 1862. But prior to the payment of my claim no person was ever paid on any claim of 1855 6 for the hire of lost horses or for the value of the horses. Mr. Atkinson, the Democratic 3d Auditor of the Treasury, arbitrarily suspended all this class of cases without law, equity or justice and contrary to the express words of the act to pay the expenses of the war. "They are all now paid by the present Auditor on the proper proof being made of identity, loss and loyalty. It does not take any more proof now to gain one of the cases than it does to gain a litigant chancery suit.

In this connection I may be pardoned for referring to another decision of this arbitrary and unjust judge or auditing officer of the government. He not only refused to pay for the value of the lost horses but he refused to pay a cent for their services while they were living and in the service of the Government. Again he reported to Congress that all the pack mules were foraged and equipped by the Government and therefore he cut the pay down from $3 per day, the actual cash prices paid in gold by the regular army, to a dollar for horses and a dollar and twenty five cents per day for mules.

For the information of Democrats and claimants, I will say that it is well known throughout Oregon that during the war one of my pack trains was captured on Wild Horse Creek in 1856. The claim for loss and hire was allowed by the Quartermaster General of Oregon by the Commissioners appointed by the Secretary of War according to an act of Congress. I prosecuted this claim faithfully from 1862 until after President Grant had appointed R. W. Clarke Third Auditor. I had testimony of the most respectable men in Oregon, and all the high officials engaged in the war, of the service, yet I was unable to collect the hire, but one of the first acts of Mr. Clarke was to decide that Mr. Atkinson's report to Congress that the equipage was furnished by the Government, was false, erroneous and unjust, and by this decision I was paid for the use of my animals and equipage, while in the service of the Territory of Oregon, two dollars and fifty cents per day, for the use of each mule. I was also paid for the mules which were captured by the Indians on Wild Horse Creek. When ever since the facts have been proven, satisfactorily, this decision has been extended to all other pack trains but not to a single transportation animal. It ought to be extended to all transportation animals. Mr. Clarke and the present Auditor holds that the act of 1849, which Mr. Atkinson, while he was 3d Auditor, wholly disregarded, is a good and just law. That it is similar to a policy of insurance, and that it covers all cases specified in the act, and the value of the property is paid when the proof is satisfactory of the loss, and that the loss occurred without any fault or negligence of the owner. The Auditor now also pays the price of the services while the animal was in actual service of the government. The loss of the animal in no way interferes with the payment for the services of the animal while he was employed by the Territory. The hire is paid for by the act of the 2d March 1862 and the value of all cases of mules is paid according to the act of the 3d of March 1849.

Business men in some parts of the South are turning their attention to manufacturing in a very earnest sensible manner. Recognizing the difficulty which the South would experience in attempting to manufacture cotton cloth of the finer kind they very wisely propose to begin with that branch which requires the least capital and the least skill. It is stated that the Southern States can make yarns five cents per pound cheaper than they can be made at the North, and that American made yarn can be sold cheaper in Europe than foreign yarns made from exported American cotton. This would seem to furnish encouragement for the South to undertake the manufacture of yarns and the coarser fabrics and the capital thereby attracted and the skill developed will naturally find opportunities in new channels. It is perhaps too much to expect that the South can ever become an extensive manufacturing country, but a great deal can nevertheless be done to give that section a more diversified industry.

An Alternative

Mr James H Slater Democratic candidate for Congress would be very magnanimous to the national creditors He would issue greenbacks enough to pay them with and if they would not receive this watered currency in payment then they should have the option of receiving new bonds calling for one third or one-half the original amount This in his opinion would be an equitable adjustment

By issuing greenbacks in the manner proposed he confesses that their value would be very greatly reduced Indeed he thinks that on his plan they might go down to forty cents on the dollar But then they would still be worth as much as they were at one time during the war and the country reveling in an abundance of currency could easily clear off all description of debts and have a fair start again

This would be a nice prospect indeed for debtors but how would creditors like it? To send greenbacks down to the low figure so complacently contemplated by Mr Slater, would cause immense loss in all departments of business While the Government was equitably adjusting on this plan with the bond holders common debtors would be adjusting on the same basis with their creditors Are the business community ready for the adoption of this method of settlement? Did they not lose enough by the unavoidable depression of the national credit during the war? Do they wish now to deliberately adopt and enforce a state of things which was then felt to be calamitous, and which was submitted to only because it was one of the inevitable consequences of the war?

Either of Mr. Slater's methods would be repudiation Practically there would be no difference between cutting off half the debt at once and issuing greenbacks enough to destroy half its value The Democratic party according to Mr Slater, is resolved to get rid of half or more of the public debt, and is not very particular about the means it would employ to do it.

The Irish and the Offices

If the Democratic party is anything it is decidedly a party of *professions*—professions of love for the foreign-born citizen being a sort of specialty In California, for instance they point to San Francisco as a city whose roll of officers exhibits proof of what the Democracy gives the Irishman To the Irishman they are in the habit of representing that the Irish have almost a monopoly of the offices of that city Noticing this fact, the San Francisco *Monitor*, the only Irish journal on the coast presents a list of the county and city officers, with the nativity or birth place of each man From this list it appears that of the *one hundred and twenty* officers in San Francisco city and county there are *ten* Irishmen! After showing this list, the *Monitor* proceeds to say

> "Did the Irish have the proportion of the offices their numbers entitle them to, they would certainly have between one-third and one half Instead, they have less than a twentieth There are on the Great Register of this county 37,000 names, about 11 000 or nearly one-third of these are credited to Ireland; about one half to the United States, and the remainder to different foreign States Of the 37,000, probably 7,000 have either emigrated or died, which, according to the same proportion would leave nearly 9,000 of Irish birth out of the 30,000. Now, it is safe to say that fully three fourths of the Irish are in the habit of voting the Democratic ticket one-half of the Americans certainly do not, neither does more than one-half of the other citizens of foreign birth Thus the Irish compose nearly one-half of the Democratic party Now, that party is not essential to the Irish but the Irish is essential to it Let the Irish withdraw their support and what becomes of that party? If political preferment and not principles were their object, could they not obtain better terms from the Republican party than they have received from the Democratic? But few as are the favors they have received *there is a growing disposition to give them less*

The *Monitor* goes on at some length to show "there is a large element in the Democratic party hostile to the Irish," that that element has combined to counteract the Irish influence, and advising the Irish to combine against the Democracy, as a party of false pretensions

Labor and Free Trade

It is truly remarked by the Philadelphia *Press* that the lowest subtlety of the free trader is the argument that protection to American industry is a discrimination against the laboring classes It is with great ostentation that he parades the duties on a few of the necessaries of life as a tax which the poor man is compelled to pay Suppose that in a year the contribution to the Government by the laboring classes through this medium of taxation amounts to tens of thousands of dollars, must they therefore be asked to shut their eyes to the fact that their ability to pay that tax is due entirely to the protection which it affords them in their labor, and further to the fact that by the increased labor provided a price is made possible which is far in excess of that paid by countries adhering to free trade doctrines? The following table abundantly proves this It shows the amount paid per week in the respective countries and in the various branches of labor indicated

Branch of Industry	Prussia.	Great Britain	United States
Cotton mills	$2 83	$3 87	$5 25
Woolen mills	2 52	5 20	[illegible] 60
Worsted mills	2 40	5 14	[illegible] 13
Sugar refineries	....	5 55	9 83
Iron rolling mills	4 02	[illegible] 53	8 70
Steel works	3 60	8 [illegible]	[illegible] 11
Machine shops	3 [illegible]	5 43	9 84
Hardware man	3 60	6 [illegible]	9 42
Edge tools man	3 62	[illegible] 00	11 [illegible]
Agricultural implements man	5 24	6 5	13 [illegible]
Firearms man	4 38	8	12 63
Saw man	3 [illegible]	[illegible]	[illegible] 10
Gas works		6 68	10 56
Leather man	3 50	6 66	9 58
Glass works, man	4	6	11 32
Silk hat, man		6 00	13 40
Paper mills	2 50	4 54	9 00
Wood shipbuilding	–	6 16	11 [illegible]
Iron shipbuilding	–	6 0	10 00

To care for the industries is the highest duty of a State since such care is protection of the laboring classes Rational tariff legislation secures nothing more nor less than industrial development, and it is a desperate logic that is forced to make the capitalist the only participant in such development

Editorial Notes

The man who lifted himself over a fence by the straps of his boots is equalled by those financiers who talk of paying the national debt by issues of greenbacks Some of them, Mr Slater for instance evidently believe that if they have gone in debt and given a note for it all they have to do is to give another note to take up the first one and then the whole thing is paid

"In one's travels around the city you meet that individual who always has the same story—nothing to do How do you expect to get anything to do, loafing around saloons or standing on the corners with your hands in your pockets Strike out " We find this in the local column of the *Herald* The local editor is clearly a man of good sense and sound judgment Had this matter been treated in the editorial columns we should have seen a long article descanting on the wrongs and sufferings of the poor man who can find nothing to do and charging it all upon the high handed outrages of Radicalism

The St Thomas project sleeps at last in death The period often extended for the ratification of the Seward treaty expired last month without leaving a sign and no one as far as heard from appears to regret it The Danish King has left his [illegible] an affecting farewell eight or ten months ago, [illegible] to his paternal bosom

A Democratic majority is reported at St Louis for City Treasurer Our Democratic neighbor crows lustily for this important victory and thinks it constitutes a good "stand off" for the Republican triumph at Oregon City The city of St Louis we believe will not vote in the Oregon election Our present concern is the election in our own State Therefore the "stand off" is not quite apparent

There could scarcely be a more significant answer to those who advocate free trade to bring down prices than the memorial recently sent to Congress signed by over thirty thousand railroad officers and praying for a specific duty of two cents per pound on steel These gentlemen set forth that, under the competition with American works erected within a few years past foreign steel makers have reduced the price from $150 to less than $70 gold Could any argument be more conclusive

Hon S Garfielde Republican candidate for Delegate to Congress in Washington Territory is now on his way from Washington to make the canvass He will address his fellow citizens in Walla Walla county on the 18th and 19th of May at Rockland opposite Dalles City on the 21st inst, at Vancouver on the 23d day of May immediately after the arrival of the Cascades steamer, and at Monticello on the 24th inst in the afternoon Subsequent appointments will be announced hereafter

J Henry Smith has been nominated by the Democracy of Multnomah county for County Judge. The *Herald* indorses him as a gentleman who "combines ability with industry and integrity Will the *Herald* be kind enough to furnish its readers with an account of J Henry's trip to San Francisco in 1863, to see "Dr Brown," stating fully the facts about the $50 000 to be obtained of "Dr. Brown" and to be used in Oregon to carry the State out of the Union and into the "Pacific Republic" scheme?

A letter from Umatilla dated May 5th, expresses the opinion that Eastern Oregon will give less than five hundred majority for the Democratic State ticket Another authority says "not over *three hundred* We have such advices as lead us to the conclusion that Jackson county will not go more than one hundred and fifty and Linn not over two hundred majority Democratic There is everything to encourage us in the belief that as compared with two years ago, the Democratic vote will be relatively reduced greatly in almost every county To secure a complete Republican triumph in June, it is only necessary that Republicans everywhere unite their efforts and work diligently and persistently through the remainder of the campaign

It is understood that Mr H R Kincaid of the Eugene *State Journal*, and nominee of the Republican party for State Printer, who has been absent for some time at Washington, is now on his way home and will be here prior to the election The last issue of the *Journal* contains a card from him in which he tenders his thanks for the nomination Some days ago the newspaper of his opponent published a paragraph against him, which, coming from the source it did, was certainly not in very good taste The insinuation was that Mr Kincaid was not entitled to the office for the reason that of late he has been absent a good deal from Oregon Now it is just to state in his behalf that he was a citizen of Oregon and working at his business as a practical printer first and as an editor afterwards, for a dozen years before his opponent, who is neither a printer nor an editor, ever saw the State He has built up a good paper at Eugene City by his own labor and management and is thoroughly identified with the people of Oregon and the interests of the State His paper is an established institution whose permanence and success do not depend on the obtainment of the State Printing We have deemed it proper to say this much in behalf of Mr Kincaid, whose temporary absence has been made the occasion for an ungenerous attack upon him

The *Statesman* has the subjoined Tillamook news "From Mr G W Miller who arrived yesterday, we have some items of interest from that little valley by the sea The past winter has been open and stock is looking well The trail over the mountains has already become dry and traveling [illegible] The citizens are determined to build a wagon road over the mountains [illegible] they are at work on two roads one towards Portland by way of North Yamhill and one towards Salem by way of Grande Ronde Mr A S Mercer and other gentlemen of capital and influence, have determined to build a large steam saw mill on the tide waters of the bay at a point accessible to moderate shipping and which at the same time command an exhaustless supply of fine timber This enterprise will do much towards developing that county The people are industrious, perfect and energetic and with the assistance of what capital this project will bring to their assistance are sure to make a prosperous and pleasant community

WASHINGTON TERRITORY

From the Boise Chronicle April [illegible]

Business is improving at Lewiston quite a number have fitted out during the month for the Cedar Creek mines and large numbers have started for the old mining camps of Pierce City, [illegible] City, Florence and Warren's A good mining season is expected as there is a greater quantity of snow in the mountains than there has been since 1862 and the ground far from poor Moose creek will be a thriving camp 300 persons are now there and large numbers will soon be moving to that new and thriving camp Steamboats are arriving twice a week heavily laden with freight and passengers, and trains are moving for the different mining camps

The farming lands in Northern Idaho are being rapidly settled The rich lands north and east from Lewiston will be extensively located and improved during the coming summer in expectation that the Northern Pacific Railway will be vigorously prosecuted

They say in Paris that the Princess Clotilde constantly wears a belt of consecrated amulets around her waist

Harmony Among Brethren

There's fun abroad The good feeling and harmony existing among our Democratic friends is manifesting itself in ways both edifying and diverting It will be remembered that Col Chapman was a candidate before the Democratic Convention for the nomination for Governor The honor, however was conferred on another The Colonel who knows well the chances of politics did not complain at this result but accepted it without murmuring When the county Democratic Convention met last Wednesday he addressed to that body a letter, together with a series of resolutions which he desired should be adopted but the Convention tabled his communication and resolutions together It is understood that he had signified his willingness to become a candidate for the State Senate but the Convention ignored his claims for that office and put him in nomination for the petty position of County Surveyor This treatment under the circumstances was too much to be submitted to and therefore he addressed the following letter to the *Evening Commercial*

PORTLAND May [illegible] 1870

Editor Commercial—Sir By the *Herald* of this morning I learn that the Multnomah Democratic County Convention on yesterday placed my name upon the ticket for the office of County Surveyor I direct that my name shall be taken off from that ticket at once While I am duly grateful to those who without due consideration of all the circumstances and who from good motives gave me their votes in convention I cannot regard the nomination in any other light than a burlesque The Democrats of Multnomah county by their duly elected delegates to the County Convention, held March 12th had seen fit to recommend the delegates then chosen to the State Convention, to cast their votes for me as the Democratic candidate for Governor; and in view of this fact the idea that I should now accept the nomination for County Surveyor is preposterous More especially is it so after I had, by letter expressly declined to accept any nomination at the hands of the County Convention unless upon the adoption by the Convention, of certain resolutions which accompanied my letter to a member of the Convention and which resolutions were by a vote of the County Convention, laid upon the table

As my letter and resolutions do not appear among the published proceedings of the Convention I herewith enclose a copy for publication in your paper

W W CHAPMAN

The resolutions are substantially the same as those adopted by the Associations of Workingmen which Col Chapman interested himself in organizing some time ago Therefore it is not necessary for us to reproduce them We only remark in this connection that it is a significant fact that the Democratic Convention of this county refused to approve the resolutions of the "workingmen's societies" which the organs of the party have long been so loudly commending If this is not proof that Democratic professions of regard for the "interests of labor" are humbug and pretense, what further proof could be required?

But though Col Chapman had been treated so shabbily by the party, the *Herald* with a design of sugaring over the affair and mollifying him and his friends published the following in regard to his nomination for the petty office which he has spurned

> For County Surveyor Col W W Chapman a life long Democrat and distinguished citizen is named The name of Col Chapman is connected with the history of Oregon from the early days, and no one has taken a more distinguished or honorable part in public affairs His voice has always been heard in defence of the people and the public and against monopolists and tyrants

This touched the dignity of the Colonel and he responded through the *Commercial* in the following caustic manner

PORTLAND, Friday Morning, May 6

I am under obligations to the *Herald* editor for the forced complimentary notice of my public services in his paper this morning They are treasured where they will be remembered when his rotten sheet will have passed away as waste paper Had he heeded or noted my earnest efforts to eradicate from the Democratic mind the idea of Repudiation which the *Herald* had sown broadcast, to-day our speakers would be saved the necessity of long and labored speeches in defence of the 8th resolution and would have ample time to pierce the works of the enemy at the weakest points from which they have succeeded in diverting public attention to a considerable extent

W W CHAPMAN

That, certainly is a crushing retort What has the organ of repudiation to say to it? No doubt it will lack courage to respond and submit meekly to this assault as it did to the chastisement of the Albany *Democrat* The organ wants votes, the chances for obtaining the State printing are dubious, and it won't do to wag an uncivil tongue towards any person connected with the party

An excellent indication of the thrift that prevails among the industrial classes in this country is found in the number of savings banks established in various States, and the vast sums deposited in them In New York full $150 000 000 is deposited in the savings institutions by about 500 000 depositors In Massachusetts, there were 131 savings banks having deposits to the amount of $114 000 000 This is equal to all the value of all the corporate capital invested in cotton, woolen iron and textile manufactures; nearly double the appraised value of all the railways and exceeding by $75 000 000 the capital of all the banks of discount in that State last year. In New York and New England it is estimated that about $330 000 000 are deposited by over 1 000 000 depositors In the Western States savings banks are flourishing and will in due time compare favorably with those of the older States When well managed they are of great value to those who would lay by something for a "rainy day"

[illegible]

ITEMS FROM THE SOUND Among the list of passengers on the [illegible] steamer we notice the name of the [illegible] missionary Rev F X Weninger S J

There will be a special meeting of the Catholic Library and Christian Doctrine Society at their rooms on to morrow (Sunday) at two o clock P M Business of importance being on hand it is desired that all members make it their object to attend

We learn that Father Buchard, so well known in Oregon and who has lately been quite sick, has been holding a mission in Watsonville, Cal, with his accustomed vigor and success We are truly glad to see that this zealous missionary has recovered from his recent illness, and hope he will pay Oregon a visit very soon The Catholics of this city are particularly anxious to hear from and see Rev Father Buchard at whose hand they have received so many spiritual favors

LIVELY TIMES Our city has presented a very lively appearance during this month, A great many strangers have been in the city and business of all kinds has been good Real estate has changed owners and several new comers have purchased with the view of locating Scores of letters have been received by citizens from various portions of the East and West the writers stating many persons are preparing to visit our State The immigration will not be as large this spring as it will next fall but we expect a lively immigration of an energetic and thrifty class of people To such we say come We have an abundance of cheap lands rich soil and a fine climate, as well as everything else that go to make people prosperous and contented We say to all don't wait but come now and assist those here in developing the resources of this great State

PACIFIC UNIVERSITY AT FOREST GROVE.—President Marsh of Forest Grove informs us that the Trustees of the Pacific University have disposed of the Academy building in Forest Grove to the School District We presume by this that there will be a district school there hereafter throughout the year [illegible] will leave the University [illegible] with its proper College work [illegible]

Among other freight by the Cascade from up the Columbia river yesterday was 15 barrels of ... horse shoes, marked A N S F

The Shoshone will be brought through The Dalles of the Columbia to-day, nothing happening to prevent.

The Jabe brought the bark Almatia up to port last evening from Rainier The vessel has a full assorted cargo

The Okanogan did not reach this city until 5 A M yesterday morning in consequence of towing the Almatia up to Rainier from Astoria She returned to Astoria on her regular trip again yesterday

COUNTY COURT —At a session of the County Court held yesterday places of voting were established in precincts as follows

Oregon Precinct—At the School house on the ... side of Columbia street between Seventh and Eighth streets.

Central Precinct—At the building on the north side of Washington street, between Eighth and Ninth streets.

Couch Precinct—At the warehouse of Mr Bills, on the west side of First street, between B and C streets.

South Portland—At the building on the north west corner of Front and Clay streets

The place of voting in Powell's Valley precinct has been changed from the White school house to the ... house of Matthew Reynolds

J Sutherland and Wm Hartley were appointed Judges of the election in Washington precinct

A license was granted to H. Cushing to retail liquors at Fulton for the period of six months from the expiration of the former license

License was granted W H Livesmore to peddle the patent right for the manufacture of Sunlight oil in the county for six months

RAILROAD WORK.—The Sacramento *Record* referring to work on the California and Oregon railroad says "The company expect to complete 150 miles before winter The entire distance from Sacramento to the State line where it connects with the Oregon and California (Ben Holladay's) line is a little over 300 miles As far as Red Bluffs the country is level and the work will be easy, but after reaching this point the ranges of mountains must be crossed, and some ... engineering will have to be done, though nothing so arduous as that encountered by the Central Company in crossing the Sierras. On their side the Oregon Company are ... surveys ahead as fast as possible, although we believe it is not yet determined at what point the State line shall be crossed the ... miles or more is surveyed ... This road will open up a ... and create a market for a large ... interior villages and small towns that have been retarded heretofore by their isolation "

... AT FOREST GROVE —President ... of Forest Grove informs us that the ... of the Pacific University have disposed of the Academy building in Forest Grove to the School District. We presume by this that there will be a district school there hereafter through out the year If so, this will leave the University ... free to deal with its proper Collegiate work, Instead of diminishing the number of teachers, they propose to increase the efficiency of all departments. A lady of excellent qualifications to assist Prof Anderson is already engaged. An institution of this kind should not be judged by the number of its students, but by its standard of scholarship. If it were less thorough and efficient in this particular, no doubt it could boast greater numbers.

YOUNG THIEVES.—Night before last at midnight, officer Hudson caught three youths, the oldest apparently not more than twelve years of age, offering to sell bouquets of flowers at a saloon on First street where girls are employed He took the young candidates for penitentiary honors into custody, and learned from the youngest, a boy of perhaps nine years that the flowers had been stolen from the garden of Mr Phil Wasserman. After a severe reprimand he allowed them to go home. They were sons of men who are in business in this city We suppress names in this instance, but promise not to do so on a ... of the act. Parents—know where your ... are Do not encourage them in duplicity by your indifference

DISBURSEMENTS FOR PUBLIC BUILDINGS —We learn from Mr ... H Wakefield disbursing agent that the sum of $24 7?3 53 has thus far been disbursed on account of the appropriations of $10?, ... by the Congress of the United States for the ... ection of the Custom House and Post Office in this city Of this sum $17,796 42 was disbursed last year So far during 1870 $6 796 16 has been disbursed of which amount $5 540 55 was expended last month About one half of the whole amount has been expended at the quarry in Washington Territory and in getting the stone to this place. A large amount of material in now on the ground for use in building

THE JUTE PLANT—INTRODUCING ITS CULTURE IN THE SOUTH —Gen Capron the Commissioner of Agriculture has imported through the American Consul at Calcutta a small quantity of the seed of the jute plant with a view to introducing its culture into the extreme section of the Union south of the frost line It is being distributed to planters in Florida and Texas, who will give it a fair trial It is a fibrous plant resembling coarse flax of easy culture and rapid growth with a comparatively large product The crop when ripe is cut down to the roots and after being steeped in water for a week or so the bark slips easy and the silky fibre is detached cleaned assorted and packed in bales of 300 pounds each Its annual product in India is estimated at more than 300 000 tons It is the material of which gunny bags and cloth and bagging for cotton as well as cheap cordage, mats and carpets are made Its great use however is for baling cotton As it takes about six yards to wrap a bale of cotton, a crop of 2,000,000 bales would require of course 18 000 000 yards of bagging The machinery for making it in India is very rude in fact no progress has been made in it for centuries But jute factories of colossal size have been erected in Great Britain some of which employ 200 hands and work up 1 000 bales per week into bagging sacking, sheeting, carpeting, duck &c In France some 10 000 tons of the raw material are consumed annually and in our Northern States its manufacture is steadily increasing Jute is spun on machinery made on the same principle as that made for flax and hemp but differing in size and proportion It is more easily worked than either of these fibres, which fact, connected with the cheapness of the raw material accounts for the rapid progress of the jute manufacture in Great Britain, compared with linen or hemp After being used up as bagging, &c it finds its way to the paper mills for the manufacture of coarse papers The Commissioner is constantly engaged in introducing new plants for practical purposes, not only improved grains and grasses but various hardy and exotic plants used in medicine, the arts dyeing and manufacturing that cannot fail to succeed in many parts of the Union

At a late printers festival the following toast was given, The printer—the master of all trades he beats the farmer with the hoe, the carpenter with his rules and the mason with setting up tall columns he surpasses the lawyer and doctor in attending to his cases, and beats the parson in the management of the devil

The Queen of Prussia has declined the Presidency of the Berlin Midnight Missions.

On all sides the GROVER & BAKER Sewing Machine is extolled the majority of ladies declare it to be the best and their verdict is a just one Wm CRANTZ & Co Agents

Caution —Audacious Counterfeit

The reputation ... Hostetter's Stomach Bitters ... for the article ... in the United States and elsewhere have provoked the cupidity of ... has been extensively ... imitated by unscrupulous sharpers The most daring counterfeit of said article which has been attempted has recently come to our knowledge. The engraved steel label on bottles containing the genuine bitters with ... vignette of St George and the dragon ... containing a warning against counterfeiters and its note of hand ... at the foot signed with our firm name has been copied so closely that the fraud can only be detected on a minute inspection The ... label is also well counterfeited, and the word ... the imitation and the genuine are precisely the same the difference being simply in the execution of the work ... of the imitation being somewhat ... Other counterfeits are on the market which are in all particulars the same as described above with the exception of a ... difference in the spelling of our name

In addition to the above these counterfeiters have gone so far in some instances as to place a strip of paper over the cork and fasten to the neck of the bottle on which is a vignette, and otherwise printed to resemble the general appearance of our proprietary U S Revenue stamp, but upon inspection will disclose the absence of the figure 4 and the words four cents, also United States Internal Revenue all of which, together with additional wording appear on our genuine stamp The public are therefore especially warned against these new Counterfeits, and are advised to purchase Hostetter's Stomach Bitters only of houses whose integrity is above suspicion The true specific is *sold in bottles exclusively never in bulk* —HOSTETTER & SMITH

REPUBLICAN PLATFORM

The Union Republican party of Oregon in Convention, makes this declaration of its principles and policy

1st Unfaltering devotion to the Union, first, last and forever, and unwavering fidelity to the Constitution and its amendments and to the laws of our National Legislature

2d We wholly approve the principles and policy of the administration of President Grant, as carrying into practical application the principles for which we have successfully striven. And we particularly commend these points in his Inaugural Address wherein he declares— let it be understood that no repudiator of one farthing of our public debt will be trusted in public places and will go far towards strengthening a credit which ought to be the best in the world, and I would protect the law abiding citizen whether of native or foreign birth wherever his rights are prejudiced or the flag of our country floats and I will have no policy to enforce against the will of the people

3d We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations and especially with regard to our just claims against Great Britain

4th We denounce all forms of repudiation as a national crime—and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home or abroad, not only according to the letter but the spirit of the laws under which it was contracted And for this purpose we favor a strict economy in the Administration of the National Government and the application to such payment of all surplus revenue from whatever sources derived and that taxation should be equalized and reduced as rapidly as the national faith will permit

5th We make no distinction between citizens whether of foreign or native birth and that we sympathize now and ever with men of all nations still ... striving for self government

6th That we are opposed to any change in our naturalization laws which shall admit to citizenship any foreigners not now entitled thereto under said laws

7th We favor a judicious system of railroad and river improvements in Oregon, in order to develop our resources ... invite settlement of our unoccupied territory and for this purpose ... Congress should make ... liberal grants of land

8th We are in favor of a tariff for revenue with such discriminations as ... for our domestic manufactures as will not diminish its efficiency for the purposes of revenue

9th We favor universal amnesty to the people of those States lately in rebellion which have been restored to full relations with the Union

10th We are in favor of fostering the cause of education and are opposed to any diversion of the common school fund of this State to any other purpose than the support of common schools

11th We regard with ... the Republican party the measures ... saved the government from destruction and that its continuance in power is the only sure safeguard to national peace and prosperity And with this platform we appeal to the voters of Oregon for their suffrages and support

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE GREEN COFFEE of the best qualities CREAM OF TARTAR and SPICES of all sorts.
The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions the sale of which daily increases The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit imitation of his mark seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters Nevertheless buyers should be forewarned and placed on their guard against this practice.

NEWSPAPERARCHIVE®

Female Suffrage

[From the St. Louis Democrat.]

The agitation of the female suffrage question has reached the American Congress and the British Parliament almost at the same time, for nearly simultaneous with the proposition in the former body of Mr. Julian, of Indiana, to amend the Federal Constitution so as to allow females to vote was presented in a letter, by Mr. Jacob Bright, a "Bill to remove the electoral disabilities of women." The friends of the movement in both countries are, to say the least, very persistent in their efforts, and seem determined to carry their point. Whether, if gained, it will add anything to the loveliness, the happiness or the usefulness of the female sex, is still a debatable question.

There are two ways of regarding the whole subject; they might be called the abstract or *a priori* and the concrete or practical ways. Viewed abstractly it is difficult to deny the justice of the movement. Thus, we believe in equal human rights; women are human, therefore they should have equal rights with men. We believe that taxation and representation should go together and never be divorced; but women, if property holders are taxed, and therefore should have a voice in the government. We believe that in point of intellectual and moral endowments women are at least equal to the average of men; why, then, should they not have equal political rights? Viewed thus abstractly it is difficult to resist the demand of those who are agitating this question. But if we regard it as a practical question, and apply to it the tests of experience and of facts, we do not so readily reach the conclusion either that the women ought to have, or that they would be benefited by the right of suffrage. There is an innate conviction among the majority of men that woman's nature is not precisely man's, but the dual of his; that her force is not identical with his, but supplement it; her place is not exactly his place but along side of it. In short, that the difference of sex which is expressed immutably in difference of figure, form and outline, marks also a different soul nature and a separate sphere of duty. This is we say the innate conviction at the present time of the great majority of civilized men. Whether correct or not, we do not undertake to decide, but such it is, and on that conviction the history of the world has formed itself. This judgment, however, deep-rooted and universal as it is, the friends of female suffrage may finally succeed in overcoming. We have no desire to retard the advent of the millenium, and if the success of the female suffrage movement is an essential pre-requisite, we can only wish them entire success.

Window Gardening.

Sophie O. Johnson writes charmingly to the *New England Farmer* of her window garden, in which she is cultivating choice geraniums. Here is her hint, which will be useful to many preparing their gardens for out-door culture this spring:

"*Bedding-out geraniums* vie with tropical birds in the color and size of their clusters of flowers. Tomb Thumb '*Lady Mary*,' purely white with red antlers, turns its snowy flowers proudly to the sun-light. '*General Grant*,' the *ne plus ultra* of the scarlets, rivals all its compeers. '*Herald of Spring*,' with the trusses of cherry red, is worthily named. *Christine*, a bright rosy pink, vies with the color of June roses. *Bicolor*, with a salmon pink center shaded to white, is very lovely. All the Tom Thumb varieties are desirable for house culture; they make such stocky plants, and are covered with such large clusters of flowers. We possess nineteen pots of different colored geraniums, and nearly all are budded, or will be soon. By the last of this month they will be in a blaze of glory, and when the summer is here they will fill a mound with their green leaves and bright flowers. There is no plant more adapted to amateur cultivation than these so-called bedding-out, or *Zonale Geraniums*. No aphides approach them, even the detestable red spider keeps at a distance. The foliage of many of them is very ornamental, though the variegated-leaved geraniums do not produce beautiful flowers. They blossom but the flowers are inferior. Still they are a decided addition to a 'window garden;' some of the new varieties are very ornamental—nothing can exceed the beauty of these interesting 'sports.' *Mountain of Snow* has pure white margined leaves. *Queen of the Queens* possesses bright green foliage with a silvery white margin. *Mad. Pollock* maintains her *prestige*, and is much soughtafter. Its bright red zone shades into crimson, and is edged with golden yellow. *Golden Vase* has green and golden foliage. *Sunset* has tri-colored leaves. The leaves are unrivaled for boquets and vases, and the plants are of most easy growth."

Not to be Caught.

[From the Chicago Republican.]

The Democracy are singing away their days of grace. A part of them are pondering the colored vote, and wondering by what art it can be excluded from the polls. If the negro can't be stripped of the right of suffrage, then the next point is, by what manner of net can he be trapped. There is much conflict of opinion as to what will constitute a taking device. A part of the press are of opinion that the Democratic hook can be so concealed in the bait of loud and noisy profession, that the unsuspicious voter will take an experimental nibble just to try the quality, and get impaled, when he can be landed on the party platform, and be made to lie still, even if he "flops" a little at first at the strangeness of company he finds himself in. Others propose the dip net game. Put the negro's name as a candidate for some office on their ticket, and try to scoop in his companions while they stand aghast, amazed at the effrontery of the proceeding. Others still advise the gill net,—excite the negro's wonder at the racket they make with the party tomtoms, and get him to look through the interstices, when they expect to fasten him.

But the trouble is that while they are discussing the device, the days of grace are swiftly gliding, and time is about out. The colored man has taken up the study of party traps, and has grown thoughtful. Why do those who have so long reviled him now want his vote? What has he done that they should love him? If he leaves his friends to aid his enemies, will he make them friends, or will they only use him to get into power, and then return him back to his old condition? Why should he bite the Democratic hook when he has already all he desired or asked—equality before the law, as a man and citizen—and could get no more, and is certain of getting less if once caught?

The open discussion of the Democratic press, of their hopes and plans to hedge the negro vote, is a most refreshing literary treat in these times of general dullness. Like "confession," it is good for the Republican soul. There is an air of innocence and verdancy about it quite past the ordinary run of humor. However, the conclusions are all alike—"the Democracy are going to have the negro—you see if they don't."

> "Hope springs eternal in the party heart,
> It rarely is, but always to be blest."

A pleasant story has lately circulated about Count Bismarck. A country clergyman, an old fellow-collegian of the Count's, was anxious to get his son into the marines, and at length summoned up courage to address his quondam comrade, entertaining, however, but faint hopes of the great Minister remembering him. Not being much in the habit of writing to grandees, the good man could not for sometime determine how to begin, but at length commenced his letter, "Your Highness." He soon received the following: "You old blockhead, you! do you think I have forgotten the happy time when we studied and drank together in Gottenberg, and when we were so often waiting on each other? And now how can you address me in such a foolish way? Pray never again call me Highness. Let us continue on the same terms as of old. As to your boy, send him to me. I'll take care of him."

A telegram from Chief Justice Howe, who went to Washington in the interest of the Big Horn mining expedition, announces the fact that his mission has been successful, and that the expedition will be permitted to go. Instructions to Gen. Augur to that effect have been forwarded. A circular, issued on the 15th inst. by the President of the Association, states that the expedition will leave Cheyenne, the first week in May.

Mark Twain is hereafter to conduct a new department in the *Galaxy*. The selection being left to him, he has pitched upon a "Department of Agriculture," and promises to do tardy justice to this long neglected topic, and to furnish a series of farming and grazing articles of blood-curdling interest. And what Mark doesn't know of farming is worth knowing, and he will tell it frankly.

The New York *Tribune* says: "Mr. Butler, of Massachusetts, is the latest advocate of the insane idea that the success of manufactures is at the cost of agriculture, and he does not wish to see manufacturers flourish in the West as long as land is cheap there. This new advocate of agricultural interests generally is also an ardent defender of Lynn shoemakers particularly."

FINANCE AND COMMERCE.

PORTLAND, Friday, May 6, 1870

No gold dispatch to-day.

Legal Tenders remain steady at 87¼c

Trade to-day has been rather quiet, in all lines. There were, however, several orders for groceries and general merchandise filled, for various points up the valley, and a few for Eastern Oregon.

The steamers from up the Wallamet are bringing down moderate freights of grain, flour and bacon, shipments being somewhat stimulated by the better tone of the San Francisco market.

Mining Intelligence.

The Boise *Statesman* says: "From Mr. Brieger, who has just returned from the mines at Shoshone Falls, we learn that placer mining is very active. Several hundred are engaged in it, and from eight to twenty-five dollars per day to the hand are taken out. The gold is very fine, requiring a large amount of quicksilver to save it. Mr. Brieger returns in a day or two."

The subjoined items are from the Silver City *Avalanche*:

"Considerable ground-sluicing is going on at the Wagontown diggings, there being too much water in the creek at present to permit doing anything else. A large force of men have been at work cleaning out the Florida mountain ditch this week. We also notice new sluice-boxes being taken in that direction.

"Last Wednesday Wells, Fargo & Co. shipped to San Francisco ten bars of Golden Chariot bullion, valued at $21,860, the product of 344 tons. This gives an average yield of about $63 per ton. At this crushing considerable low grade ore was worked.

"Last Saturday, Ida Elmore stock was selling at $22 per share, and the Golden Chariot at $13. For Silver Cord, $6 was asked, but no bidders."

SAN FRANCISCO, May 6.

Flour—750 bbls Oregon extra, $4 90; 700 do Marysville extra, $5 25, now held at $5 50. At the close 1000 bbls extra at $5 25. We quote superfine in sks at $4 62½@4 75; extra in sks $5 25@5 50 ₩ 196 lbs.

Wheat—Market quiet, but firm, holders generally asking $1 70@1 75 ₩ 100 lbs for choice parcels. A lot of 4000 sks choice free on board—private.

Barley—1000 sks brewing at $1 35; an offer of $1 40 made for 5000 sks do. It is reported that 2000 sks choice has been sold at $1 50. It would be difficult, perhaps, to procure a round lot of choice brewing for a less figure, at the same time it is noteworthy that most of the lots which have changed hands have been on account of speculators and not consumers. It is difficult to predict what course the market will ultimately take at the close. 220 sks brewing, in two lots, sold yesterday at $1 30; 2000 do at $1 45 ₩ 100 lbs. We learn that as $1 60 was offered this morning the market is very feverish, and speculation rampant. The legitimate demand is essentially nominal.

Oats—Quotable at $1 40@1 65 ₩ 100 lbs, with sales of 400 sks within the range.

Wheat quoted at Liverpool on the 5th at 9s 7d.

The several precincts are requested to hold their meetings at their respective places of voting on the Saturday previous and select delegates as follows: Union Precinct, 4 delegates; the other precincts, 2 delegates each.

B. M. WATTS,
Chairman Union Rep. Co. Com.

St. Helens, Oregon, April 20, 1870.

Republican Platform

Adopted by the Republican Territorial Convention at Vancouver, April 21st, 1870.

Resolved, That the Republicans of Washington Territory are in full accord with the great Republican party of the Nation; the party that maintained and carried the Government through the most powerful and gigantic rebellion [illegible] and [illegible] by enemies abroad [illegible] the party that successfully triumphed over the armies of the rebels at the South, that removed the foul blot from the national escutcheon, that [illegible] in the eyes of the civilized world, [illegible] our financial credit beyond the hope [illegible] [illegible] length [illegible] a highway for the interchange of products of the Eastern and Western portions of the continent, that will [illegible] marked as one of the wonders of the age.

Resolved, That we regard the Administration of President Grant as eminently successful; that the difficulties, many of which were presented by the anomalous condition of eleven States at the close of the rebellion, have been settled in accordance with [illegible] and [illegible] harmonious and perfect relations [illegible] between all the States of the General Government.

Resolved, That [illegible] by the Government [illegible] have been wisely [illegible] with pride and pleasure to the fact that the financial convulsions have [illegible] that the credit of the Government has been sustained, and that the relative value of specie and paper currency has approximated as rapidly as was consistent with the safety of our commercial and financial affairs.

Resolved, That the [illegible] and unflinching position assumed by the Administration in regard to the *Alabama* claims has already produced the most salutary results, which are evidenced not only by the [illegible] Great Britain to re-open negotiations [illegible] principle of international law.

Resolved, That the National and Territorial Governments should be conducted in all their branches with the most rigid economy; that the necessaries of life should, as far as practicable, be exempt from direct or indirect taxation; and that we are opposed to repudiation in any form, believing that the honor of the nation is of more importance than any pecuniary consideration.

Resolved, That we earnestly urge upon the National Government the speedy settlement of our rights to the San Juan and other Islands lying between the Canal De Haro and Rosario Straits, and the acknowledgment by Great Britain of our just claims thereto, and the importance of opening negotiations for the purpose of securing the annexation of British Columbia to the United States.

Resolved, That the North Pacific Railroad and its branches is a work of national importance, hence we call upon the General Government for the most liberal aid and assistance to secure its early construction and completion.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES.

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system, bought their pallid, anxious and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation should suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, and that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating the disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1867 and 1868. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 452.

REMEMBER TO PUT BOX 852 ON THE LETTER.

Consultations FREE.

THE WESTERN MONTHLY FOR 1870.

THE CONDUCTORS OF THE WESTERN MONTHLY have aimed to produce a Magazine which should properly represent the growing Literature of the great Mississippi Valley—hitherto without a representative among the Literary Magazines of the country. Encouraged by the hearty appreciation and support thus far extended by the public, they will spare no pains or expense to increase the future excellence of their magazine, and make it attractive and valuable to all.

The Third Volume of this Periodical begins with the January number. In this number will be commenced a new Serial Story entitled "The Rolling Stone," by George Sand, which will be the greatest work of this great novelist and one of the most remarkable stories ever produced.

The Steel Portraits and Biographies of Prominent and representative Western Men, which have proved so popular and distinctive a feature of the Magazine, will be continued. In addition to these, The Western will contain Articles in Prose and Poetry from an able corps of Regular Contributors, among whom are the best writers in the West.

Terms of the Western:

Single Copy, $3 per year, in advance; Five Copies for $12 50; Ten Copies for $20, and each additional copy, $2. For each Club of Five or more, an extra copy will be furnished gratis. Specimen number mailed to any address on receipt of 25 cents.

Our Premium List:

For Three New Subscribers with $9, we will send a copy of Dr. J. W. Foster's "Physical Geography of the Mississippi Valley," Price $3 00; a work which should be in the hands of every person interested in the Great West. [illegible]

For six New Subscribers with $18, one copy of Mackay's History [illegible]

For ten New Subscribers with $30, a copy of Webster's Unabridged Dictionary. [illegible]
